# SITUATION

Jenny works in a government sector . Jenny loves her job and is also hardworking person. Contrary, Jenny actually loves to eavesdrop on people. One day, while she was on her way to the pantry to make some coffee, she saw two of her colleagues, Mail and Kumar discussing in a peculiar manner. They seemed vigilant and watchful while talking as if their conversation is too risky for other people to listen to but unfortunately, they had caught Jenny's attention. Jenny then immediately started eavesdropping on her colleagues' conversation and she found out that they were planning to steal her other colleague, Hadif's project proposal in order to get promoted to a larger government sector.

# SITUATION

Jenny had been secretly crushing on Hadif so when she heard the conversation, she decided to just keep the conversation to herself because if she tells her boss, then Hadif could get promoted to a new place. She did not want that to happen because she wants to work where Hadif works. So she kept quiet and in the end, Mail and Kumar got promoted. Hadif was devastated when he realized other people stole his proposal. Jenny felt terrible about it but she was too afraid to him the truth and she did not want Hadif to despise her after what she had done. After all, Hadif decided to forgive Mail and Kumar eventhough they never once apologized for what they did. They all moved on with life except for Jenny who continues living in regret because she kept quiet due to her selfishness.

# BACKGROUND

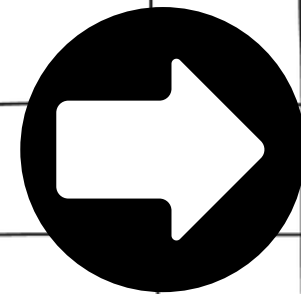

## CONFLICT

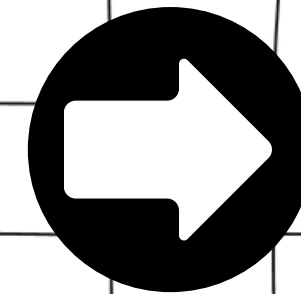

Jenny heard about a cruel plan on stealing somebody else's proposal in order to get promoted without having to work hard. But she decided to not say anything about it because if she does, she might lose her puppy love. She ended up living in guilt and her crush could not get promoted.

## BENEFIT

Jenny is able to work in the same place as Hadif and not be apart from him.

## SOLUTION

The only solution to keep Hadif in the same department as her is to keep the secret to herself and not tell anyone about it.

# BACKGROUND

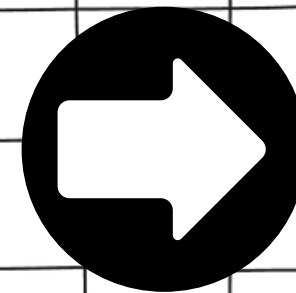

## FEELINGS

## DECISION

Jenny knew that the plan to steal Hadif's proposal is wrong and unethical but she could not bare to be apart from Hadif.

Due to her self-serving desire to keep Hadif near her, she thought that it is best for herself to stay silent eventhough she knew the truth.

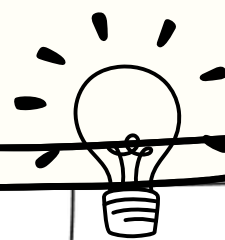

# LOSS OF VALUES

## RESPONSIBILITY

The state or quality of being held accountable for one's actions, decisions, and commitments is referred to as responsibility. It means being aware of and accepting the consequences of one's own behaviour or the tasks assigned to them. Jenny lost her sense of responsibility when she chose to stay silent instead of Mail and Kumar's plan on stealing Hadif's proposal. This is because she knew that Mail and Kumar's plan was immoral and unfair towards Hadif and still chose to not do anything about it. As a fellow colleague, she is responsible to report on any dishonesty or fraudulence that she comes across in order to keep a healthy and fair work environment. Long-term effect of her action could lead to the downfall of the government sector due to the incompetence of the staffs that gets promoted by unfair means.

## HONESTY

Honesty is the trait of being truthful, genuine, and frank in one's ideas, words, and deeds. It includes upholding honesty and integrity while avoiding deception or misrepresentation. Jenny lost her honesty trait when she decided to not be frank and transparent to Hadif despite the fact that she knew and heard everything about the plan to steal Hadif's proposal from Mail and Kumar. She should make up her mistakes towards him by being honest but she was afraid of being hated by Hadif which is the guy that she adores.

## SELFLESSNESS

Jenny lost her sense of selflessness because she chose to stand with her ego in order to keep Hadif in the same department as hers instead of coming clean upon the Mail and Kumar's plan. This shows that she only cares about her desire rather than Hadif's. Being selfless includes caring about others and having the desire to help other people first without wanting anything in return. We can clearly see from the situation itself that Jenny considers herself and desires first before others, even though she knew how immoral and unfair Mail and Kumar's plan was. By staying selfish, Jenny had contributed to the injustice and unfairness in workplace which then could lead to failure of government institution for having cheaters and incompetent individuals as their high-ranked employees.

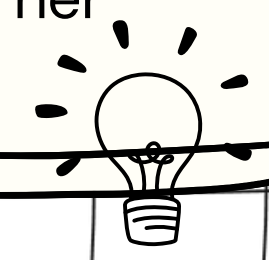

# UNIVERSAL VALUES

## INTEGRITY

The trait of being truthful and having solid ethical values is referred to as integrity. It includes maintaining behaviours, values, approaches, measurements, and principles consistent. In this situation, Jenny knew that the plan was unfair and unethical but she chose to ignore her principles and values in order to satisfy her desire.

## INNER PEACE

Inner peace is a condition of psychological and emotional calm in which there is no anxiety, tension, or concern. It is a condition of harmony and balance in which individuals feel peaceful, centred, and content regardless of external circumstances. Inner peace is frequently related with feelings of acceptance, attentiveness, and a profound understanding of oneself. We can see that in this situation, Jenny could have kept her inner peace if she was truthful in the whole situation.

## FAIRNESS

The trait of being fair, unbiased, and equal is referred to as fairness. It means treating all individuals or groups fairly and without prejudice or discrimination. In the situation, Mail and Kumar can keep the fairness in the workplace by working hard to get promoted instead of stealing Hadif's proposal. By stealing his work, they are being unequal which contradicts the definition of fairness.

# **BRAINSTORMING**

*Jenny can expose what she heard to Hadif and her boss about mail and kumars plan instead of keeping quiet just to satisfy herself with hadif's presence*

*Jenny can confront mail and kumar immediately in order to stop them from executing the plan and consequently saving Hadif's proposal from being stolen.*

*Jenny should take accountability and tell Hadif the truth. That is the least she could do to redeem herself after what she had done.*

# CONCLUSION

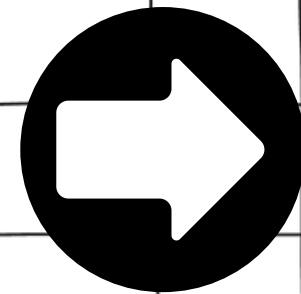

Jenny had an opportunity to save Hadif's proposal from being stolen and used but she stayed selfish by keeping quiet and being thoughtless of others. She could've been honest from the get go and confronted both Mail and Kumar about their plan but she decided that it is best for her if Hadif does not get the promotion. Consequently, she had to continue living in guilt while Hadif's chance to get promoted was wasted abruptly. This led her to believe that she is dishonest, unreliable and irresponsible of herself and others as she felt guilty of her action afterwards which cause her to lose her self-esteem and self-respect. She knew she could have saved Hadif's proposal but she chose to prioritize her ego, unhealthy obsession and attachment towards him. This whole issue could have been avoided if she prioritizes integrity and work ethics. As a result, she got what she wanted but with the price of having to live in guilt forever.

# SELF-REFLECTION

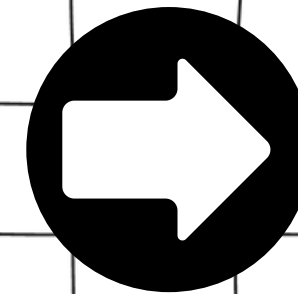

## REPORTING

This situation tells upon Jenny who discovered the reasoning behind Hadif's failure to get promoted. She had the choice to tell the truth about what she heard and expose Mail and Kumar's plan to her boss and Hadif to save Hadif's proposal from being stolen and used for other's goods but she chose to stay silent in order to be in the same department as Hadif for the sake of her infatuation towards him.

## RESPONDING

I think Jenny's inability to control her feelings towards Hadif had worsen the issue because in my view, she could have thought about the consequences of her action for staying silent and secretive to everybody included. This might spare her from making absurd decisions just because of her feelings towards Hadif. If she really loves him than she should have let him pursue his dreams and help him by being truthful instead of being one of the culprit behind his inability to get the promotion.

## RELATING

This situation reminds me of when I was in primary school, my tablemate stole my math exercise book. I was scolded badly by my teacher because I lost the book. It was traumatizing and I can still recall her rage at that time. I decided to stay in the class for during recess to look for the book because I was certain that I brought it with me. I secretly dug into my tablemate's under desk storage and my book was in the desk storage the whole time. By the end of the school day, one of my classmates reached out to me and told me that she saw my tablemate went through my backpack to find something the morning I arrived but she did not think it would be a big deal so she just kept quiet.

# BACKGROUND

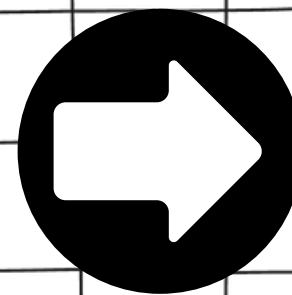

## REASONING

I understand that Jenny was afraid of not being able to see the guy that she that she adores so much if he gets promoted to another department. I have been in the situation where the guy I liked had to move to a better school and it felt horrible for being apart of someone I have feelings to. Even so, she should have thought through upon the outcome of the action she thought of committing to avoid having to live a life in guilt and no inner peace.

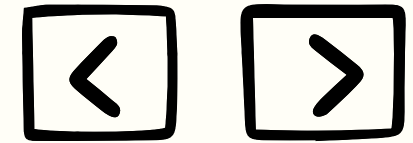

## RECONSTRUCTING

I have learned that staying silent and dishonest will not let us live a peaceful life eventhough we got what we wanted. I will be honest and vocal when I come across any immoral act that will result in others downfall. Staying unbothered or silent will not bring any good when it comes to integrity. No matter what the consequences we get from being vocal and truthful, we should always prioritize being morally decent to the society.
